

Cheer total to the end of December 2016: 70567 bits so ~\$705.67

With text logging there's no proof a cheer went through, so consider this a vague & higher number than DSP actually received.

Also I only got chat text logging up & running between the FFXV YouTube premiere & the Twitch premiere, I have included screencaps of what I caught before that including a few subs & cheers.

I'll manually transcribe those subs & cheers before the first log entry.

mr\_vidar\_viking: cheer1

soulrider95: cheer5 like dis fam

blue.blur64: cheer100 Here we go now. Sup guys! :P

\*DSP makes a comment here that he'll only get \$4 all December on Twitch... he's already gotten 3x\$2.50 + \$1.06 for ~\$8.56\*

mr\_vidar\_viking: cheer1 haha

Twitch 20161129-1600 pt4.png

\*The first profitability here is a 20 bit cheer which is in my text log, so no more to manually include\*
